Detalii de implementare:

Task 1: Am descompus matricea A intr-un produs de 3 matrice U,S,V cu ajutorul functiei svd, unde U si V sunt matrice ortonormate, iar S este matrice diagonala. Am recreat matricea A folosind subamtricile U_k , S_k si V_k ale matricelor U, S si V. Produsul lor este compune matricea A_k , o aproximare comprimata a matricei A.

Task 2: Am generat cate 4 grafice pentru imaginile 2 si 4, ilustrand (1): valorile singulare in ordine descrescatoare, (2): raportul dintre suma primelor k valori singulare si suma totala, (3): eroarea aproximarii, (4): rata de compresie a imaginii(raportul dintre memoria ocupata pentru retinerea imaginii de la pasul k si memoria totala necesara). Ele au fost obtinute prin compararea matricei A cu matricea A_k obitunuta prin metoda de la taskul 1.

Task 3: Am realizat compresia imaginii retinute in matricea A folosind PCA(principal component analysis); Spatiul k-dimensional al componentelor principale este W.

Task 4: Am realizat compresia imaginii retinute in matricea A folosind matricea de covarianta Z.

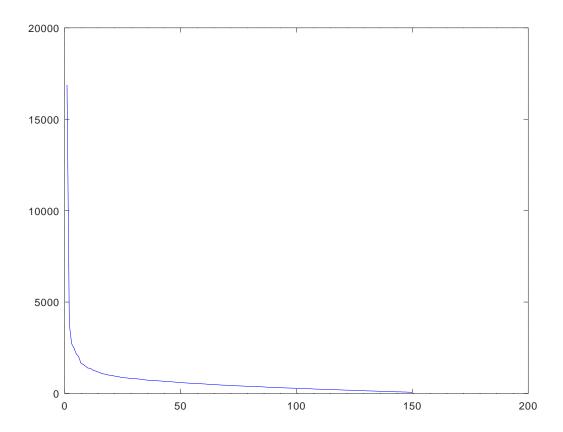

Task 5: Am generat cate 4 grafice pentru imaginile 2 si 4 si am procedat asemanator ca la task-ul 2. Graficele au fost obtinute prin compararea matricei A cu matricea A_k obtiunuta prin metoda de la taskul 3.

Task 6: Am implementat algoritmul care indica pe baza unei multimi de imagini daca alte imagini sunt cunoscute, necunoscute sau nu reprezinta fete umane. Am transformat matricea de pixeli a fiecarei imagini intr-un vector si am retinut toti vectorii intr-o matrice T. Algoritmul determina cea mai mica distanta dintre proiectia unei imagini de test si proiectiile tuturor imaginilor(vectorii din matricea T).

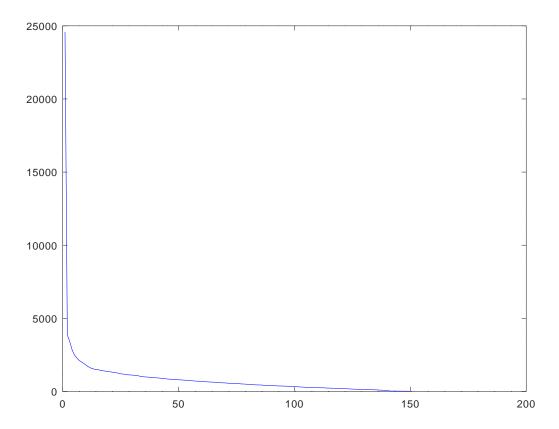

1 TASK 2

1.1 Grafic 1

1.1.1 Imaginea 2

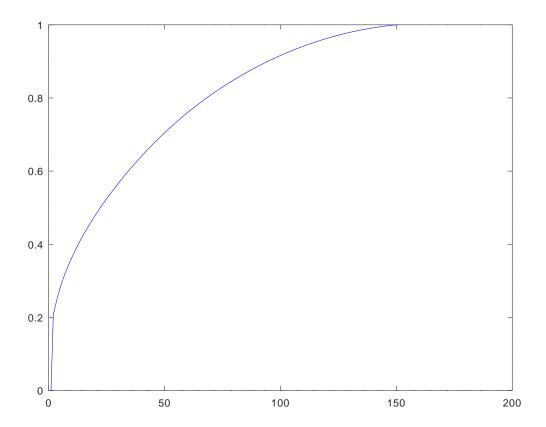

1.1.2 Imaginea 4

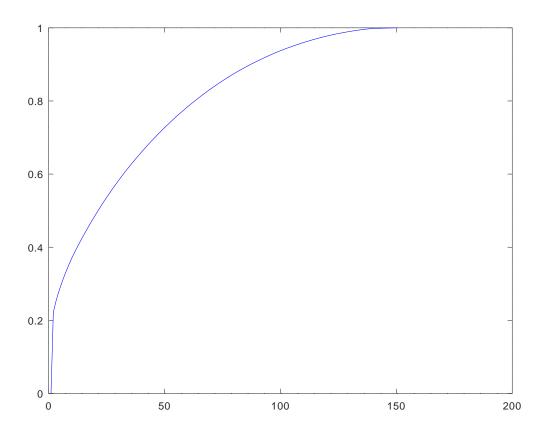

1.2 Grafic 2

1.2.1 Imaginea 2

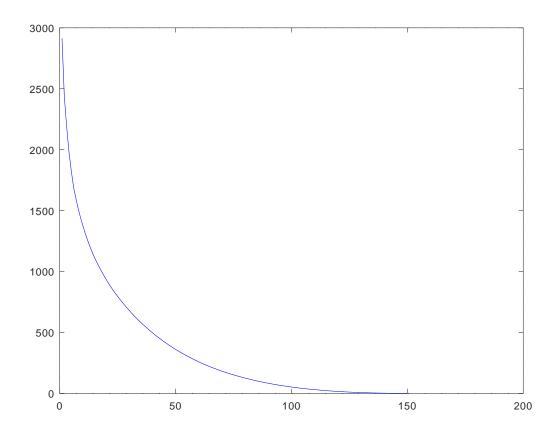

1.3 Imaginea 4

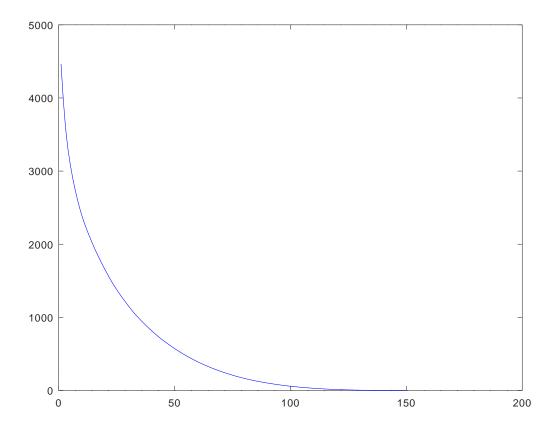

1.4 Grafic 3

1.4.1 Imaginea 2

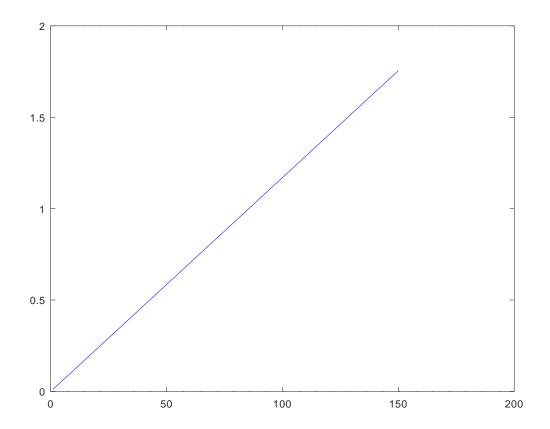

1.4.2 Imaginea 4

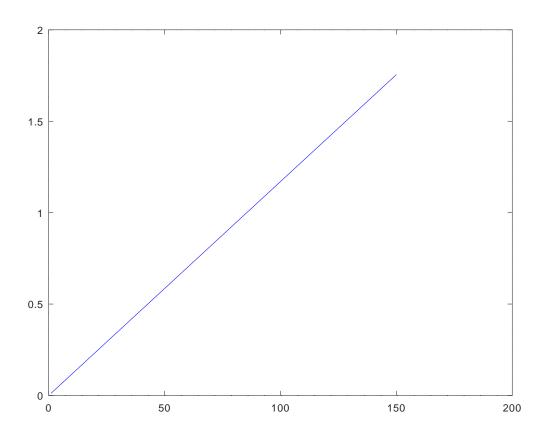

1.5 Grafic 4

1.5.1 Imaginea 2

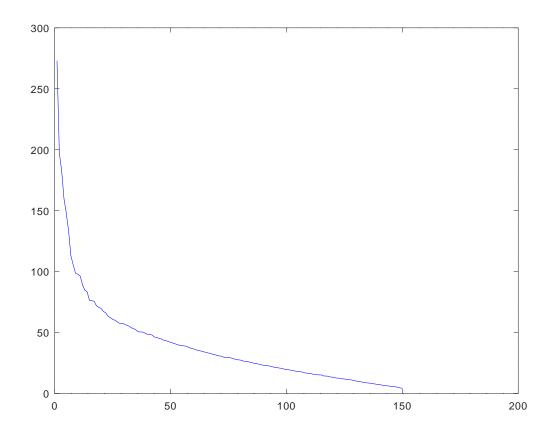

1.6 Imaginea 4

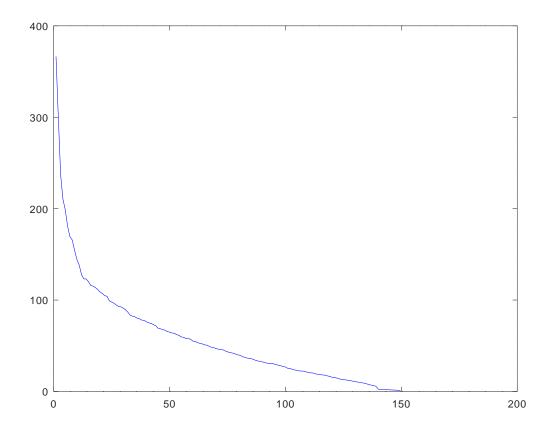

2 TASK 5

2.1 Grafic 1

2.1.1 Imaginea 2

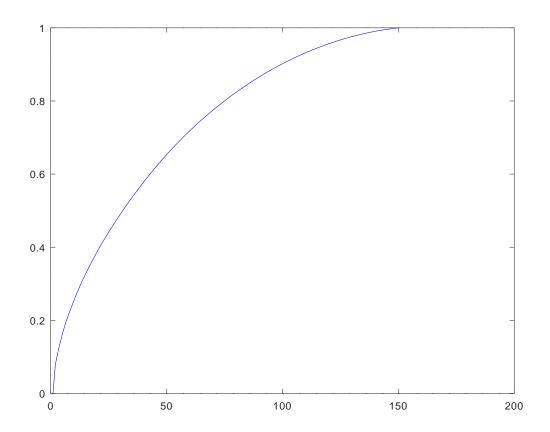

2.1.2 Imaginea 4

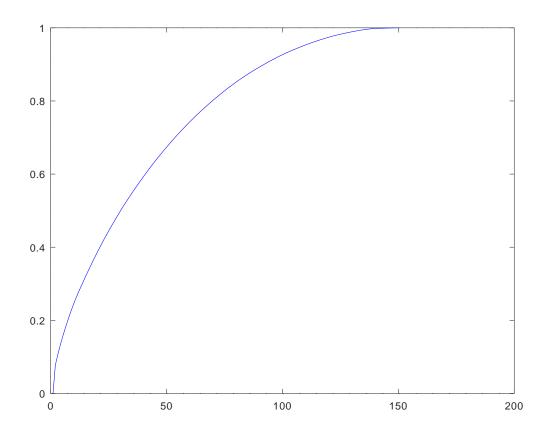

2.2 Grafic 2

2.2.1 Imaginea 2

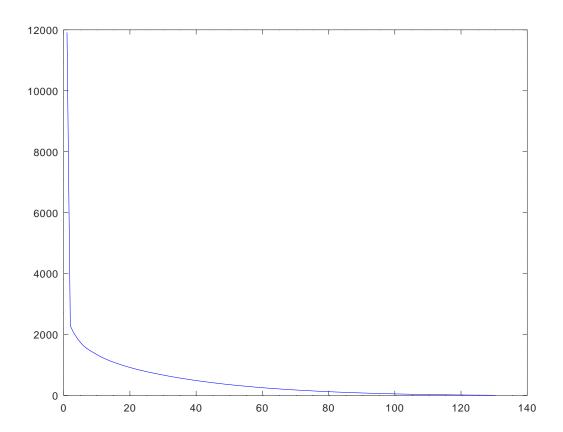

2.3 Imaginea 4

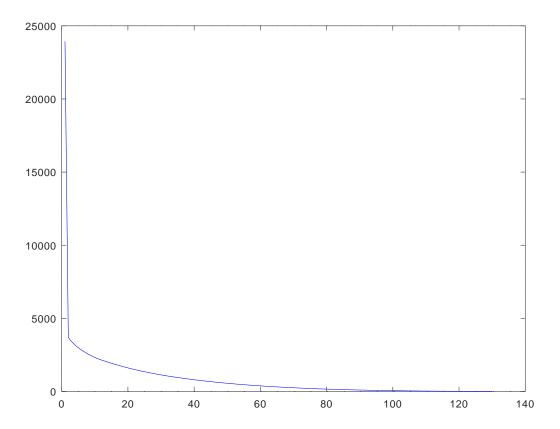

2.4 Grafic 3

2.4.1 Imaginea 2

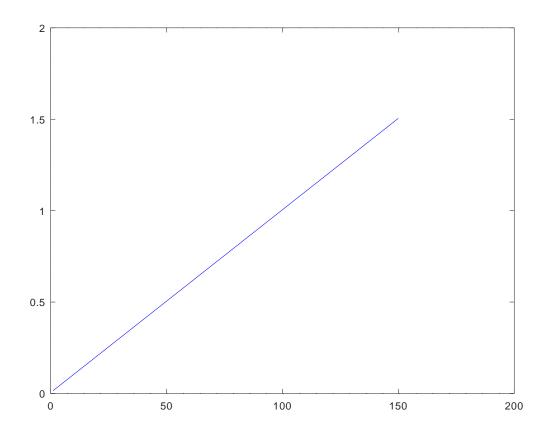

2.4.2 Imaginea 4

2.5 Grafic 4

2.5.1 Imaginea 2

2.6 Imaginea 4
